Education

Vellore Institute of Technology, Chennai
B.Tech in Computer Science and Engineering

2023 – 2027
CGPA: 8.01/10

Skills

Programming Languages: C, C++, Java, Python, SQL, JavaScript
Web & App: HTML, CSS, React, Flask
Databases / Query: SQL
Tools / Platforms: Git, GitHub, VS Code, Postman, Arduino IDE
Areas of Interest: Full-Stack Development, GenAI
Competitive Programming: 250+ problems solved on LeetCode

Certifications

Generative AI — IBM
Certificate Link

2025

Projects

Home Automation with Voice Control

Arduino, C/C++, IoT

- Built a system to turn electronic devices on/off using voice commands.
- Programmed using Arduino IDE; integrated voice control to automate household appliances.

Feedback Analyzer for Car Rental Service (GenAI)

Python, NLP, Pandas

- Processes a feedback CSV/file as input and outputs categorized insights (e.g., sentiment, feedback type counts).
- Implemented simple NLP pipeline to tag and aggregate the kinds of feedback received.

Blog Application (Hackathon)

React, Node.js, Express, MongoDB

- Collaborated with a team to design and develop a full-stack blog platform during a hackathon.
- Implemented user authentication, CRUD posts, and a clean UI for reading/writing blogs.

College Fest Website

HTML, CSS, JavaScript

- Built a website for event registrations, hackathon sign-ups, and merch display/purchase flows.
- Focused on UX and clear navigation to handle multiple event categories.

Personal Portfolio Website

React

- Designed and deployed a responsive personal portfolio to showcase projects, skills, and achievements.

Hackathons, Clubs & Leadership

Hackathons: Participated in two hackathons; delivered a *blog app* in one and a *college fest website* in the other.

CodeChef Club, VIT Chennai: Core member (Marketing) — promoted several events, handled outreach, and participated in competitive programming activities.

Competitive Programming: Solved 250+ problems on LeetCode (focus on DSA fundamentals and problem solving).

Additional

Coursework (selected): Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP, Machine Learning

Interests: Open-source, system design basics, product building, hackathons
